SUMMARY

Software Engineer with hands-on experience deploying and optimizing LLM voice agents for enterprise clients. At SquadStack, owned the NxtWave voice-AI campaign end-to-end, turning it from loss-making to 50%+ gross margin through iterative workflow and prompt redesign. Builds full-stack products with Next.js, SQL, and PostgreSQL; currently building backend systems in C#/.NET.

EXPERIENCE

EigenSecure

Software Engineer

Oct 2026 – Present

Remote

- Building backend services in C#/.NET following SOLID principles.

SquadStack.ai

AI Agent Product Analyst Intern

Apr 2026 – Sep 2026

Noida

- Owned the NxtWave campaign end-to-end as the client's primary point of contact, turning gross margin from –33% to 50%+ while scaling it 600× from pilot to production through iterative workflow and prompt improvements.
- Diagnosed failure patterns across 700+ call transcripts using SQL and manual review, and audited voice-agent flows for Parul University, Unacademy, and CollegeDunia, turning findings into targeted prompt and conversation-flow fixes.

Pakka Limited

Full Stack Development Intern

Dec 2025 – Mar 2026

Remote

- Built an employee rewards portal with role-based access control and secure authentication, enabling 1,200+ employees to redeem task points, using CodeIgniter 4, PHP, and MySQL.

PROJECTS

Terriva | [GitHub](#) | Next.js, RAG (Google Gemini), PostgreSQL, NextAuth

Dec 2025 – Present

- Built a RAG-powered personalized health assistant using Gemini API and PostgreSQL, generating context-aware insights based on user cycle data.
- Designed and implemented secure authentication using NextAuth with Email Magic Link, Google OAuth, and WebAuthn passkeys.
- Integrated PostgreSQL-based analytics to predict cycle trends & generate automated email reminders via SMTP.

SkyBee Routes | [GitHub](#) | Django, NetworkX, Q-learning, Google Gemini

Sep 2025

- Built a flight route optimization system using Django with A*, Dijkstra, and Q-learning algorithms.
- Used NetworkX to model a 9,000+ airport network and compute centrality metrics on 90,000+ routes.
- Fetched real-time details via Amadeus API and generated AI price suggestions with Google Gemini API.

TECHNICAL SKILLS

AI/LLM: RAG, Prompt Engineering, LLM Evaluation & QA, Voice AI Agents, Vector Embeddings, Google Gemini; learning LangChain

Languages: Python, SQL, C#, JavaScript, Java, C++, PHP

Frameworks: .NET, Next.js, React, Django, CodeIgniter 4, REST APIs

Databases & Tools: PostgreSQL, MySQL, MongoDB, Git, Docker, Postman

Engineering Practices: OOP, SOLID Principles, Data Structures & Algorithms

EDUCATION

Vellore Institute of Technology, Vellore

Bachelor of Computer Applications (BCA) | CGPA: 9.30/10

Jul 2023 – Apr 2026

Vellore, Tamil Nadu
